

Dear Student,

Carone Learning Academy is a Cognia-accredited school. Our courses and teachers have met Cognia's rigorous standards of quality, and we can provide transcript credit for courses taken through our program. This credit is, generally, reciprocal—meaning that most accredited schools respect Cognia's accreditation and will accept credits from Carone Learning Academy.

If you are planning to transfer credits to your school, we encourage you to check with your academic counselor prior to beginning a course to make sure they will accept the credit. Here is some information about Carone Learning Academy that your school counselor will likely ask:

Q: Is Carone Learning Academy accredited? By whom?

A: Yes, we are regionally accredited by Cognia (formerly AdvancED and Northwest Accreditation Commission). Cognia credit should be reciprocal to other regionally accredited organizations.

Q: How does Carone Learning Academy define a credit?

A: Most of our courses are one semester. Each semester course takes approximately 60-75 hours and equals 0.5 Carnegie units, or 0.5 credits (5 Units in CA).

Q: Are Carone Learning Academy classes taught by licensed instructors?

A: Yes, all of the courses are taught by highly qualified instructors who hold current teaching licenses with subject matter credentials respective to the courses they are teaching.

Q: Can Carone Learning Academy issue an official transcript?

A: Yes, official transcripts can be ordered and sent directly to a student's school or other address.

If your school or counselor has additional questions, please feel free to have them review our website, www.CaroneLearning.com, or contact me directly.

We look forward to working with you!
